**Alexandria/Pineville “Making a Visible Difference” project:**

Representatives from Stella-Jones Corporation, Kisatchie Treating LLC, and Colfax Treating met with EPA persons on September 17, 2015 to discuss issues with regard to the Community Sustainability Initiative (CSI) for voluntary actions to promote sustainability in the communities. Action plan items discussed included; 1) the formation of a Community Sustainability Network made up of key community persons, 2) specific voluntary actions that will result in Best Management Practices (BMPs) for communications between industry and the community and BMPs for specific creosoting operations (under the CSI), 3) Community engagement activities, 4) EPA review of air data collected by LDEQ from 2013 to 2015, 5) surface soil and/or sediment sampling in high access areas of the community, 6) a review of groundwater data as part of the RCRA permit oversight, 7) involvement in the EPA program called “College/Underserved Community Partnership Program (CUPP), and 8) engagement of the faith-based community in the movement towards sustainable solutions.
